

# SEBASTOPOL CHARTER

## A Public Waldorf School

### Hybrid Learning Parent Pledge

Dear Parents/Guardians,

As you know, returning to school amidst a global pandemic is a huge challenge for keeping students and staff safe. The California Department of Public Health Services, along with the Sonoma County Department of Health Services, have clear restrictions and regulations for schools to mandate. We are asking your help in complying with these requirements.

- **Student Health Checks** are MANDATORY. Every morning your child attends school, an automatic text message will be sent at 7am with a link to the [Health Check form](#). Teachers will check the completion of these health checks before school begins. **If your child has any symptoms, has a fever or has been exposed to a COVID-19 positive person, they cannot attend school.**
- **Masks** are MANDATORY. From the moment your child enters the campus, s/he/they should be wearing a CDC approved mask (pictured). Bandanas, masks with valves, or scarves are not acceptable face coverings. If your child refuses to wear a face covering, they will be asked to continue distance learning only.
- **Exposure Testing** is MANDATORY. If you receive a letter from the school stating there has been a COVID-19 exposure, you must have your child tested.
- For **Drop Off and Pick Up** you MUST stay in your car. Only your child is allowed on campus. More information will be provided about where to drop off and pick up your child.
- Your child MUST bring a **Refillable Water Bottle** since all water fountains are turned off.
- **Routine Testing** is recommended for all students every other week. A list of free COVID-19 testing sites and resources are available on our website.
- Your child is in a specific **Stable Group**. For play dates or after school activities, be mindful of the cross contact between stable groups. If you or your child contracts COVID-19, we will need to know who your child has had contact with and act accordingly to notify all potential exposure. There may be consequences resulting in your child and other students having to quarantine for a time period.

Have two or more layers of washable, breathable fabric

Completely cover your nose and mouth

Fit snugly against the sides of your face and don't have gaps

Have a nose wire to prevent air from leaking out of the top of the mask

Another way to support the school is explaining to your child the importance of healthy hand hygiene, 6 foot distancing, and why the school has to enforce these measures to keep students and staff safe. We are in this together and look forward to having our students back on campus again.
